WasteEng2005 Albi (France)	310 contributions	49 Countries	10 sponsors	(4 Industrial awards)

Sponsorship opportunities

Featuring "Biomass, Residues, Waste, Renewable Resources to Energy, added-value Materials and Circular Economy towards Energy and Environmental Transitions"

Why should you sponsor this event?

WasteEng2022 is an International Conference of high Scientific and Technical standards dealing with original and prospective themes. This event will gather the main stakeholders in the field and provide tremendous opportunities for Companies:

- directly involved in the Energy and Environmental business related to Biomass and Waste
- that use Biomass, Residues and Waste as feedstock for the production of Chemicals, Energy, and Intermediates for Chemistry, Pharmacy and Food industries
- that produce and use renewable resource of energy (Solar, Biomass)
- that develop equipment, processes or service for Energy and Environmental issues

Benefits:

Logo exposure: Website (before and after the Conference) and hyperlink to the Company website, slide show, Conference documents and a poster displayed during the Conference
 Advertisement: Advertisement in the documents (half or full page)

1 discounted registration A booth	Supporting a coffee break 1 free registration A booth	Award delivery (1) Supporting a lunch 1 free registration A booth

Please contact us for more details at: wasteengseries@listes.mines-albi.fr

What is the Sponsorship for:

- Advertise and highlight your activities and business
- Support to invite high level profile for plenary and keynote speech
- Support for students from developing countries
- Best paper award related to industry issues (innovation, cutting-edge, ...)
- Best student poster award
